

# OraDigit Code of Conduct

At OraDigit, our commitment to ethical innovation drives how we develop, deploy, and maintain AI-powered systems.

This Code of Conduct outlines the standards we uphold to ensure our technologies serve people with integrity, transparency, and fairness.

## 1. Ethical AI Development

We follow global guidelines such as OECD AI Principles and IEEE Ethically Aligned Design to ensure our models are explainable, safe, and fair.

## 2. Data Responsibility

We prioritize the protection of user data and enforce strict controls for data access, retention, and sharing.

## 3. Inclusion & Equity

OraDigit promotes inclusive hiring, representative datasets, and model evaluations that minimize bias and support equity.

## 4. Transparency & Accountability

We document model behavior and decision logic, ensuring stakeholders understand how our systems work.

## 5. Open Collaboration

We publish select tools and research via our GitHub to contribute to global progress in AI and data science.

This Code of Conduct is part of our broader commitment to building a future where technology amplifies human potential responsibly.
